MISSION

Initiated by the Montgomery County Medical Society, the National Capital Physicians Foundation was formed in 2016 as a not-for-profit 501(c)3 foundation whose mission and goal is to advance the practice of medicine and improve population health in the national capital region through education, research and innovation.

UNDERLYING PRINCIPLE

The National Capital Physicians Foundation will identify and support some programs and projects on a continuous basis; and on a periodic basis other programs and projects will be identified which are appropriate and within the scope of the National Capital Physicians Foundation. The National Capital Physicians Foundation will seek individual and corporate donations, and shall apply for grants consistent with its mission.

GOVERNANCE

The Board of Directors of the National Capital Physicians Foundation is an all-volunteer board, and will include physicians and business professionals.

Board of Directors:
Robert Karp, M.D., President
Duane Taylor, M.D., Vice President
Shannon Pryor, M.D., Secretary-Treasurer
Betsy Ballard, M.D.
Audrey Corson, M.D.
Susan D'Antoni
Lynne Diggs, M.D.
Stephen Rockower, M.D.
Bruce Smoller, M.D.

PURPOSE

The purpose of the **National Capital Physicians Foundation** is for educational and research activities and such other charitable purposes as the Board may determine from time to time within the meaning of section 501(c)3 of the Internal Revenue Code. The educational and research activities of the Foundation will be related to:

- Enhancing the health and well-being of physicians;
- Enhancing the health of the citizens of the national capital region;
- Improving quality and increasing the accessibility of medical and health services to the general public;
- Conducting educational programs to enhance the knowledge of physicians and/or the public about health care issues;
- Encouraging and funding research and innovation in health care and technology;

- Encouraging and developing physician leadership programs;
- Assisting in disaster planning, coordination and response;
- Receiving and maintaining funds to use to fund other tax-exempt organizations which share the mission of the Foundation;
- Promoting volunteerism among medical and health professions; and
- Establishing fundraising.

INITIAL PROGRAM DEVELOPMENT

In a 2014 study conducted by Mayo & the AMA, 54.4% of physician respondents indicated they were exhibiting at least one symptom of burnout. In MCMS's 2016 Physician Practice Survey, 53.7% of physician respondents indicated they are experiencing moderate to high levels of burnout. As a result, initial efforts of the National Capital Physicians Foundation are focused on development of a physician counseling and coaching service for those suffering from practice stress and burnout. This confidential, no-insurance filed approach is available to all physicians in the region. PRN, Physicians' Resource Network, was implemented on November 1, 2017, and thirteen physicians have already received counseling.
